

Corporate Sponsorship Opportunities Now Available at NCCAVS User Group Meetings

Many of the Northern California Chapter AVS (NCCAVS) User Groups hold free bi-monthly and quarterly meetings featuring technical presentations from several of industry and academia's leading experts. These meetings typically draw 50-100 attendees from local industry.

For \$250, your company can sponsor any one of the User Groups meetings. However, please note there are only three corporate sponsorships available at each meeting.

Sponsorship includes:

- Company name/hyperlink on the sponsored meetings e-mail announcements (reaching 1,000 + people)
- Company name/hyperlink on the sponsored meetings Schedule and Announcement Web pages
- Overhead signage at the sponsored meeting

Sponsorship at some User Groups meetings MAY also include:

- A 5-10 minute presentation at the sponsored meeting
- A literature/banner display at the sponsored meeting

Income from sponsorships will help defray the costs of our meetings by covering refreshments and travel costs for out of town speakers.

If you are interested in sponsoring a meeting, please contact Heather Korff, NCCAVS Office, 530-896-0477, heather@avs.org.

NCCAVS User Groups:

- [Chemical Mechanical Planarization Users Group \(CMPUG\)](#)
- [Plasma Etch Users Group \(PEUG\)](#)
- [Thin Film Users Group \(TFUG\)](#)
- [West Coast Junction Technology Group \(WCJTG\)](#)

Each User Groups meeting schedule is available at www.avsgroups.org
